

Weaver's knot

Als je te weinig draad hebt gepakt, kun je met deze knoop nieuw draad aanknopen

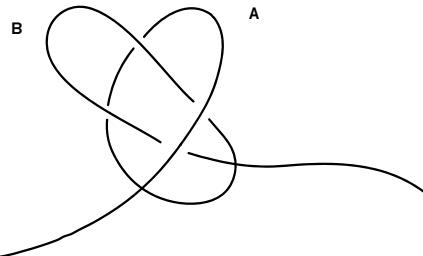

A

Maak twee lussen in een nieuw stuk draad.

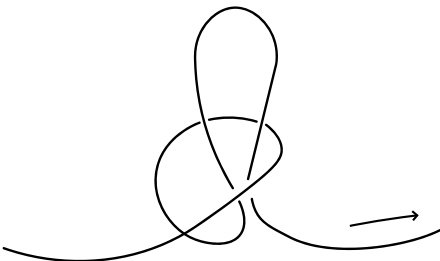

B

Steek lus B achterlangs door lus A, zo maak je een slipknoop.

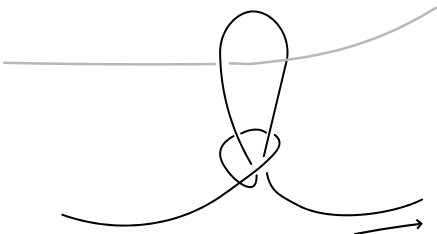

C

Trek aan het eind van de draad om de lus kleiner te maken.

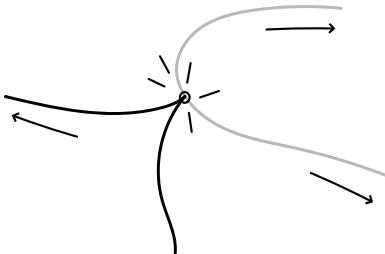

D

Steek het uiteinde van je oude draad door de lus, trek strak

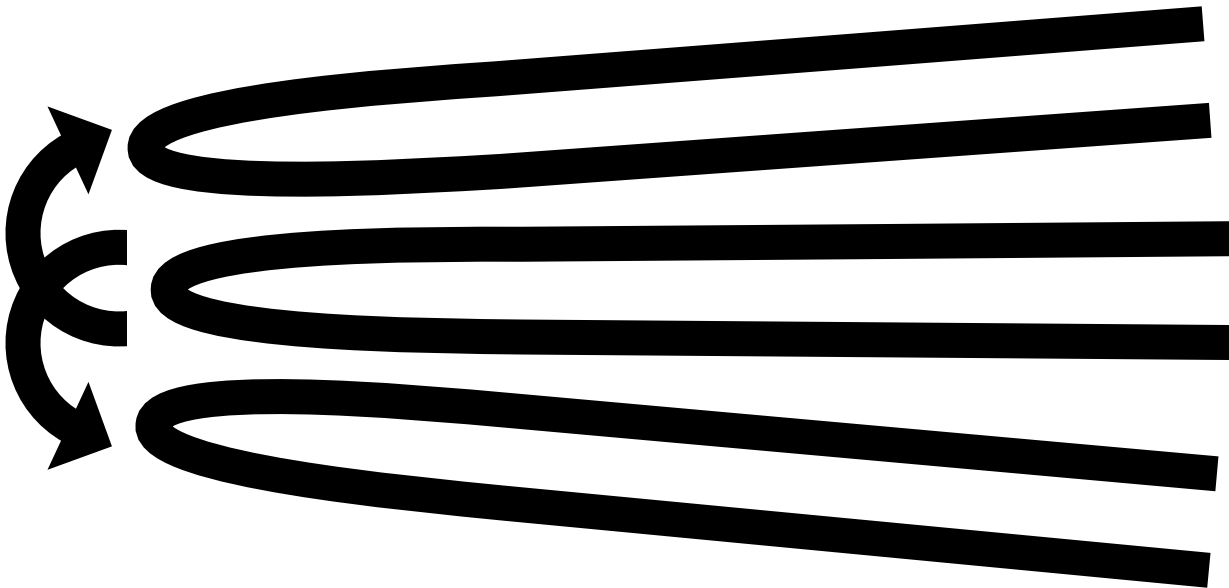

E

Trek aan het nieuwe draad en het oude draad en de knoop maakt een “klik” geluid en zet zichzelf vast.
Let op: controleer of je de knoop nog kunt schuiven, zo ja, doe het nog een keer.

French Link Stitch

French Link Stitch

Gaten
Even aantal

Draadlengte
1 maal de hoogte van de publicatie
per katern + 3 keer extra

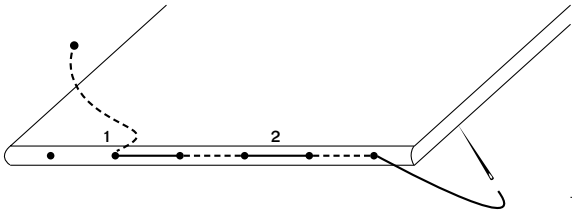

Gereedschap
Prikmal
Priem
Garen
Boekbindnaald
Steen
Schaar
Tape

Even aantal gaten,
buitenste twee gaten moeten 15 mm van de kop en de staart
van het katern zitten.

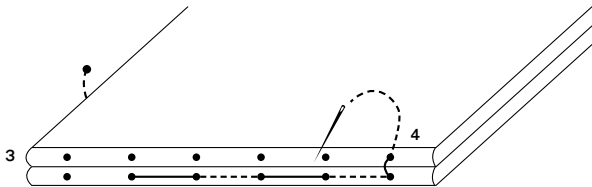

A

- (1) Start binnen in katern 1, gat 2
Zet het begin van het draad vast met een stukje tape.
(2) Ga om en om buiten en binnen langs.

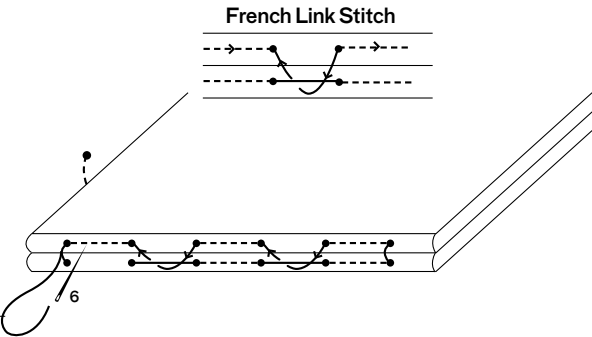

B

- (3) Leg katern 2 bovenop katern 1 en
(4) ga het bovenliggende katern in.

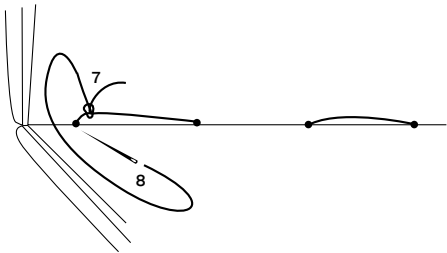

C

- (5) Gebruik de french link stitch om het katern vast te zetten.
(6) Ga weer naar binnen bij katern 1, gat 1

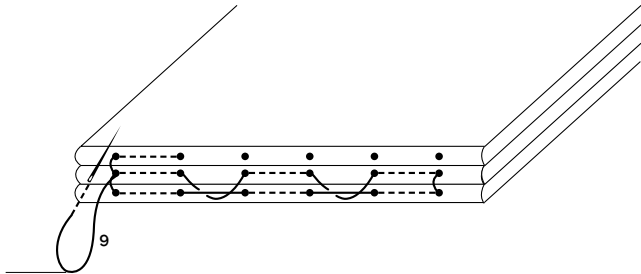

D

- Let op: aanzicht binnenzijde
(7) Sluit af met een dubbele knoop
links over rechts knoop, rechts over links knoop
(8) Na knoop: steek de naald terug naar buiten via gat 1.

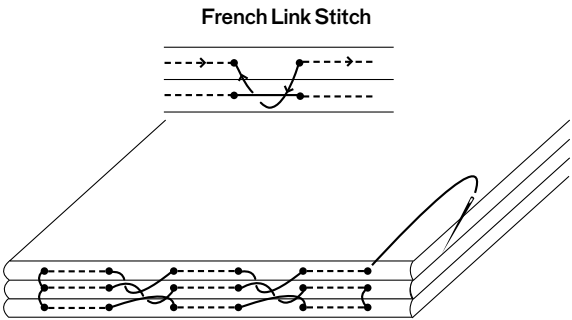

E

- Plaats een nieuw katern bovenop
(9) Verbind het bovenste katern.
(10) Leid het garen vervolgens naar buiten via het tweede gat.

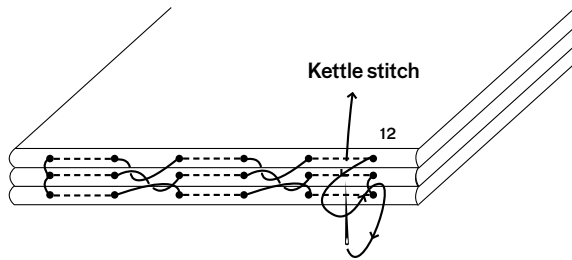

F

- (11) Gebruik defrench link stitch om het katern vast te zetten.

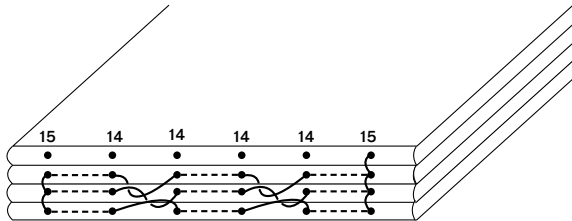

G

- (12) Leid het garen naar buiten
(13) Maak het katern vast met een kettle stitch.
Let op: haal het draad door de lus en trek voorzichtig vast.

H

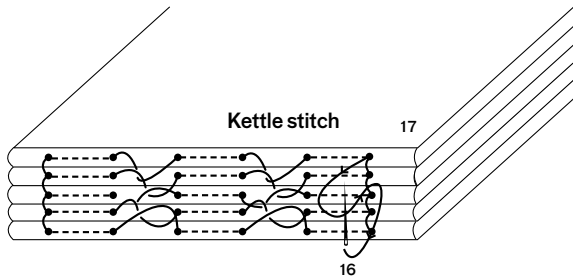

- Na de buitenste kettle stitch, plaats telkens een nieuw katern
en bevestig op gelijke manier als stap E/F/G.
Let op gebruik de french link stitch bij (14) en gebruik de
kettle stitch aan de buitenzijdes (15)
Volg dit tot dat alle katernen vastgenaaid zijn.

13

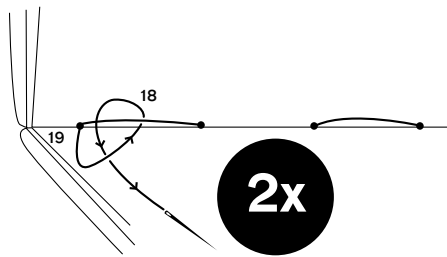

I

- Ga bij het laatste katern, na de kettle stitch (16) weer terug
naar binnen via hetzelfde gat (17)

J

- Let op: aanzicht binnenzijde
(18) Sluit af met een 2 keer een half Hitch knoop
Steek de naald onder het draad door en steek vervolgens
door de lus en trek voorzichtig vast richting gat 1 (19)

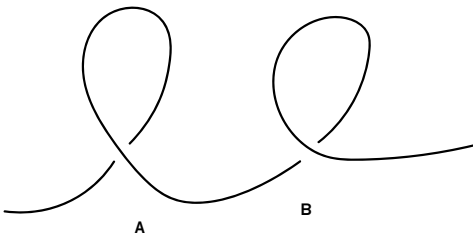

Weaver's knot

If you don't have enough thread, you can tie on new thread with this knot

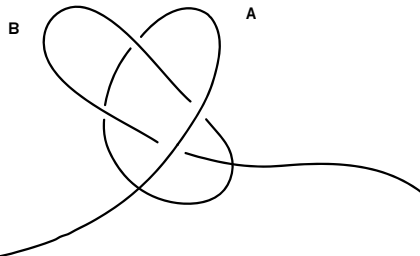

A

Make two loops in a new piece of thread.

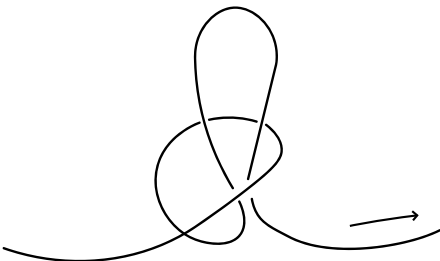

B

Insert loop B through loop A to create a slip knot.

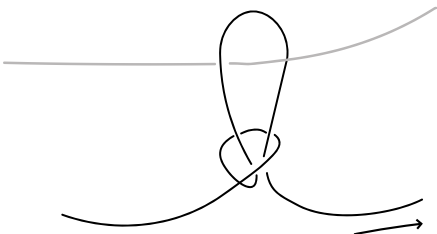

C

Pull the end of the thread to make the loop smaller.

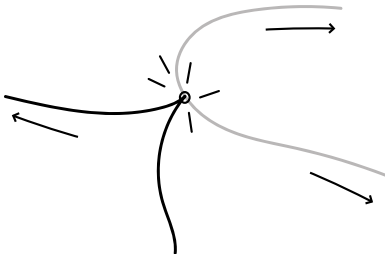

D

Insert the end of your old wire through the loop, pull tight

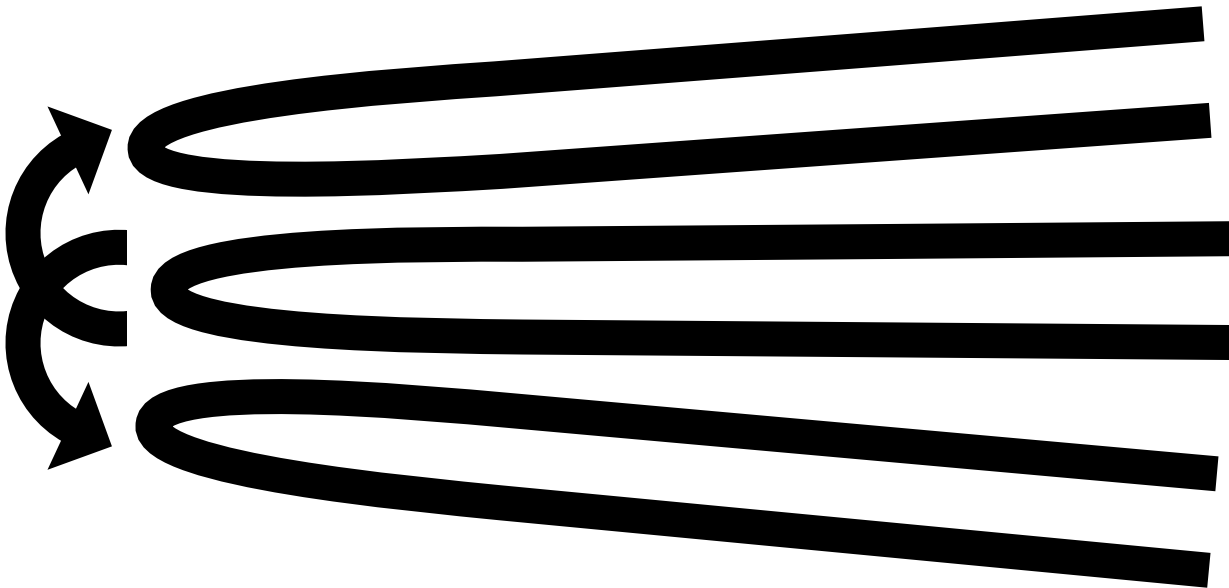

E

Pull the new thread and the old thread together, and the knot will make a "click" sound and secure itself.
Note: Check if you can still slide the knot; if so, try it again.

Tape

Even number of holes,
the outer two holes should be 15 mm from the head and the
tail of the signature.

A

- (1) Start inside signature 1, hole 2.
Secure the beginning of the thread with a piece of tape.
(2) Work alternately around the outside and inside.

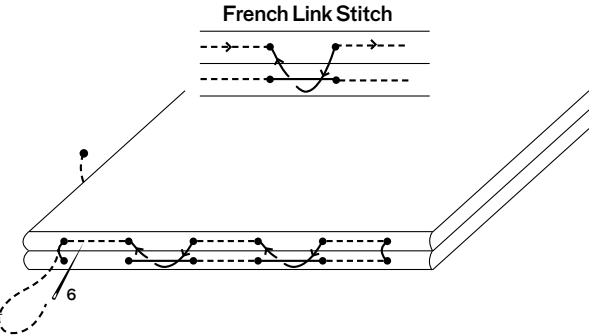

B

- (3) Place signature 2 on top of signature 1 and
(4) go into the signature 2.

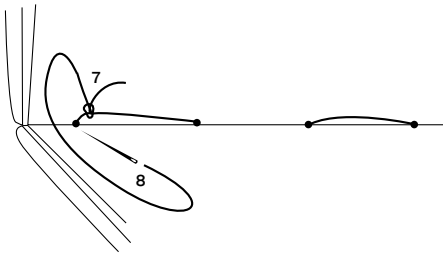

C

- (5) Use the French link stitch to secure the signature.
(6) Return to signature 1, hole 1

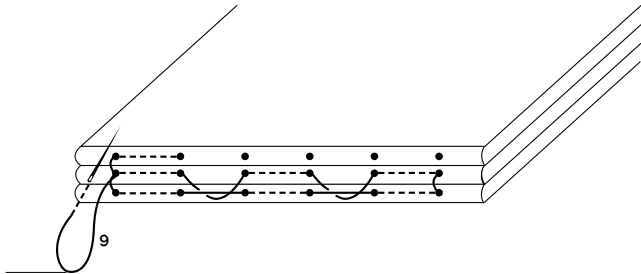

D

- Note: Inside view
(7) Finish with a double reef knot, left over right knot, right
over left knot(8)
After knot: Insert the needle back out through hole 1.

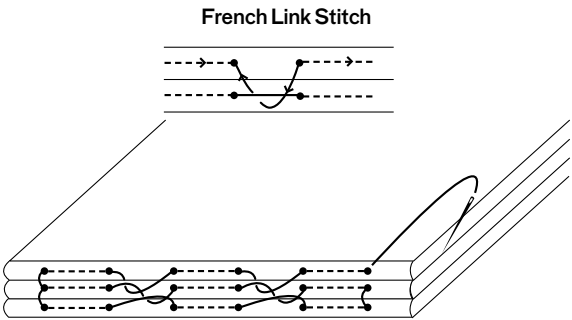

E

- Place a new signature on top.
(9) Connect the top signature.
(10) Then, thread the thread out through the second hole.

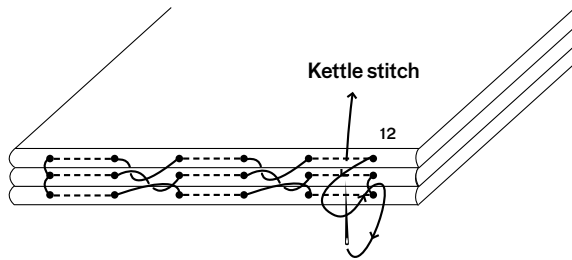

F

- (11) Use the French link stitch to secure the signature.

G

- (12) Bring the thread out.
(13) Secure the signature with a kettle stitch.
Note: Pull the yarn through the loop and tighten gently.

H

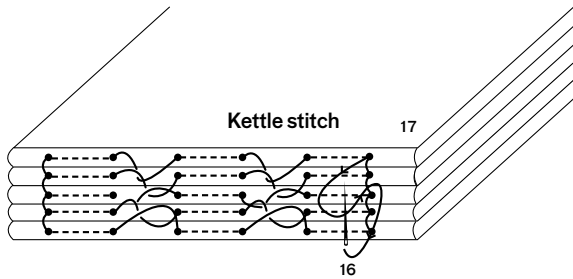

- After the kettle stitch, place a new signature and attach it in
the same way as steps E/F/G.
Note: Use the French link stitch at (14) and the kettle stitch on
the outer edges (15).
Continue this process until all signatures are sewn in place.

13

I

- For the last section, after the kettle stitch (16), go back in
through the same hole (17)

J

- Note: Inside view
(18) Finish with two half-hitch knots. Pass the needle under
the thread and then through the loop, pulling gently towards
hole 1 (19).
