

Tox for touchdesigner

To read the info coming from bare conductive add these tox to your project.

download:

[Bare_ConductiveV2.tox](#) (edited by Tony)

To use this, prepare your TouchBoard in the Arduino IDE:

1. Install the [Arduino IDE](#)
2. On Windows, install the [touchboard driver](#)
3. Install the Touch Board Arduino Plugin [Touch Board Manual Install.zip](#)
4. Upload the "DataStream.ino" to the touchboard

[DataStream.ino](#)

Dive inside the TOX to see what is happening :)

You can adjust certain choices to get other outputs

More InDepth info can be found here: <https://github.com/hku-ect/BareConductive>
