

Controlling lights using data flow software

- [ENTTEC-DMX from Isadora](#)
- [ENTECC from Touchdesigner](#)

ENTTEC-DMX from Isadora

With this Isadora file you can control DMX lighting directly using an ENTTECC DMX USB PRO
[download the Isadora patch here](#)

updated : [ENTTEC-DMX-USB_lightcontrol.izz](#)

this Isadora patch the works with [Par LED High-end | RGBAW+UV](#)

ENTECC from Touchdesigner

see [DigitalLightingcontrol_touchdesigner](#)
