

4 seasons Virtual Experience (niet af)

todo: insert photo/video @ Blackbox in action

Description:

Experience the 4 seasons in light, audio & image triggered by motion capture.
This is an example of how sounds can be placed in space to create a virtual spacial experience,

Required components:

- Mocap (motive @ Blackbox IBB/ON or Vive tracking), 1 or more rigid bodies/trackers
- Computer with Touchdesigner
- Projector
- Speakers
- Digital Lighting (control through ArtNet or Entecc)
-
- [Touchdesigner Patch](#)
- example files

Relevant Bookstack links:

- [setup mocap + osc bridge in Motive&Gazebo and Vive&Touchdesigner/Gazebo](#)
- [digital-lighting-control-from-computer](#)
- [books/osc-open-sound-control](#)

Setup of Pyshical components

requires support from Blackbox mangers!

[insert photo's](#)

Callibrating tricks

Place the rigid body in the desired location.

insert TD export screencapture example
